

Pursuant to the Sequence Rules (37 CFR 1.821 et seq.) in effect at the time this application was filed, applicant submits a substitute paper copy and a substitute CRF to correct errors reported in the raw sequence listing. The substitute paper copy and the substitute CRF have the same content. The corrections were made to address obvious typographical errors in the initial Sequence Listing and, thus, the substitute Sequence Listing does not add new matter to the original disclosure.

The Examiner is invited to contact the undersigned if any further information is required.

Respectfully submitted,
